PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In ne Application of:

Francois HIRSCH et al.

Serial No.: 09/926,493

Group Art Unit:1645

Filed: January 24, 2002

For: NUCLEIC ACID-ANTIBODY CONJUGATE FOR DELIVERY A FOREIGN NUCLEIC

ACID IN CELLS

INFORMATION DISCLOSURE STATEMENT

Sir:

TECH CENTER 1600/2900

As a means of complying with the duty of disclosure under 37 CFR §1.56, and in accordance with 37 CFR §\$1.97 and 1.98, Applicant(s), through the undersigned attorney, submits this Information Disclosure Statement. The patents, publications or other information submitted herewith are listed on the attached Form PTO-1449 and copies are attached. The Examiner is requested to make these references of record in the file of this application.

The listed publications are cited as follows:

International Search Report	All of Item A with exception
	of AK
French Preliminary Search	All of Item A with exception
Report	of AE, AI, AJ, AK, AP and AQ
Specification	Items AB, AC, AD, AK and all
	of Items B, C and D

A copy of the search reports is enclosed. Note that FR 2 786 104 is equivalent to FR 98/14858 in the specification.

In accordance with 37 CFR §1.97(b)(3), this Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits of the above-identified application.

Respectfully submitted,
